SDI

(Selective Dissemination of Information.) This is a service individually tailored to the requirements and interests of the engineer or research worker. Details of information relevant to the interest profile of the individual subscriber are selected from the data being processed for the INSPEC database. Information is dispatched weekly on 150 mm × 100 mm (6" × 4") cards.

TOPICS

This is an SDI service based on [illegible] profiles. There are [illegible] of subjects covering high-activity areas of research and development. This is an inexpensive SDI service designed [illegible] in the [illegible] of [illegible] within their subject area.

MAGNETIC TAPES

Tapes containing all the information included in the INSPEC publications are issued twice monthly. They enable the larger research and development organisations to produce their own internal information and current awareness services.
